

Round Base Mic Stand

MS7201C / 10692

Features and Benefits

An industry standard, The MS7201 is one of the most popular microphone stands ever made. This classic design has several added features available only from On-Stage, including the 7 lb. sand-cast base which is sturdy enough for road abuse yet light enough to carry. The MS7201 also features a die-cast zinc clutch and .625" - 27 solid threaded upper shaft. This model is available with a black shaft (MS7201B) or chrome shaft (MS7201C) and is also available in white (MS7201W.)
