

# LED Piano Lamp

LED8800 / 14240

## Features and Benefits

With a wide lamp head that evenly illuminates sheet music or keys and a sleek, low-profile design that preserves stage optics, our LED8800 LED Piano Lamp is an ideal keyboard light. The lamp head is supported by an adjustable gooseneck that facilitates effective light positioning. To accommodate a variety of applications, the power switch toggles between bright light, low light, and off settings.
