

Speakon to Speakon

Fat Max 8 AWG - Speakon to Speakon (NL4FXs)

Pro Co 11 gauge 4-conductor speaker wire, twinned to create the industry's first 8 gauge 2-conductor assembly. Two 11 gauge conductors are crimped together into an 8 gauge lead (ending up with a single circuit, 1+ and 1- on the Speakon). The leads are then inserted into the terminals on the NL4FXs and crimped down using the Speakon screws provided.
