

**JBL**  
**LSR2300 Series Studio Monitors**

Professional quality, superior reference, affordable price. Full-range LSR2300 models are bi-amped, utilizing 4th-order crossover curves. All models feature XLR, TRS, and RCA inputs.

Inv#	Model#		List	M.A.P.
54892	LSR2325P	5"LF/55W, 1"HF/35W, 43Hz-20kHz	249.00	199.00
55352	LSR2328P	8"LF/95W, 1"HF/70W, 37Hz-20kHz	439.00	349.00
54891	LSR2310SP	10"sub/180W/28Hz-2kHz	499.00	399.00

**JBL**  
**LSR4300 Series Recording/Broadcast Monitors**

The LSR4300 series features integrated processing, allowing them to employ JBL's Room Mode Correction system. Other features include XLR-1/4" analog in's, AES/EBU and S/PDIF digital in's, USB, and HiQnet interface. The LSR4326/Pak includes 2 monitors, measurement mic, remote control, Control Center software, USB cable, and batteries.

Inv#	Model#		List	M.A.P.
39429	LSR4326P	6"/150W/LF 1"/70W/HF/Bi-amped	650.00	549.00

**JBL**  
**LSR6300 Bi-amplified Studio Monitors**

JBL's Linear Spatial Reference series monitors provide the most accurate sound possible, even in small project studios. They employ the RMC EQ circuit, dynamic braking, and EOS waveguides. Inputs are via XLR and 1/4" connectors. Available in pairs with RMC Calibration Kit or as a 5.1 surround package complete with LSR6312SP subwoofer.

Inv#	Model#		List	M.A.P.
53037	LSR6325P-1	5.25"LF/100W, 1"HF/50W, Bi-amped	525.00	419.00
53446	LSR6325P/5.1	(5x) LSR6325P, (1x) LSR6312SP 250W Sub/RMC Calibration Kit	4290.00	3439.00

**TANNOY**  
**Ellipse Passive Series Monitors**

Ellipse Passive monitors are 3-way designs featuring Dual Concentric™ low/mid drivers and SuperTweeters to extend response above 40kHz. A precision low-loss crossover network ensures seamless transition between bands. Elliptical enclosure minimizes diffraction.

Inv#	Model#		List	M.A.P.
52095	ELLIPSE 8	8"L-M/1"H/100W/8C/55-40kHz	1379.00	1249.00
79696	ELLIPSE 10	10"L-M/1"H/100W/8C/42-40kHz	1899.00	1729.00

**TANNOY**  
**Reveal Series Studio Monitors**

Available in active and passive versions, Reveal monitors feature exceptionally rigid MDF cabinet construction with extensive internal bracing for tight bass response and clear midrange. Sculpted edges eliminate diffraction. Active models provide balanced and unbalanced inputs.

Inv#	Model#		List	M.A.P.
68525	REVEAL 501A	5"L/1"H/60W Active/64-30kHz	229.00	179.00

They'll help you spot key features at a glance and make comparing products easier than ever. See Icon Legend on opposite page footer.

**SAMSON**  
**MediaOne Studio Monitors**

Compact MediaOne monitors feature tuned rear-vented enclosures, Class A/B power, front panel level controls, headphone outputs, and RCA inputs. 6ft, 20 awg speaker cable included to connect master speaker to slave. Sold in pairs.

Inv#	Model#		List	M.A.P.
58149	MediaOne 3a	3"LF/1"HF/2x15W/95Hz-23kHz/Pair	139.99	99.00
50993	MediaOne 4a	4"LF/1"HF/2x20W/54Hz-23kHz/Pair	209.99	149.00
53459	MediaOne 5a	5"LF/1"HF/2x20W/50Hz-23kHz/Pair	279.99	199.00

**DYNAUDIO**  
**BM Series Active Near-Field Monitors**

BM Series near-field monitors offer high resolution and tonal precision. Features include neodymium drivers, clip indicators, and XLR inputs. MKII models also feature LF/MF/HF analog positioning filters to compensate for room acoustics. Sold in pairs.

Inv#	Model#		List	M.A.P.
60612	BM5A COMPACT	5.7"LF/50W, 1.1"HF/50W, 55-21kHz, Pair	1250.00	999.00
80239	BM5A MKII	7"LF/50W, 1.1"HF/50W, 45-21kHz, Pair	1250.00	999.00
60609	BM6A MKII	7"LF/100W, 1.1"HF/50W, 40-21kHz, Pair	1745.00	1499.00
80240	BM12A MKII	8"LF/100W, 1.1"HF/50W, 38-21kHz, Pair	2345.00	1999.00

**DYNAUDIO**  
**BM Series Active Near to Mid-Field Monitors**

Available in Left/Right versions, the high power BM15A features an electronic phase-aligned crossover feeding two discrete MOSFET amplifiers. Complex protection circuitry prevents driver damage while providing maximum transient response.

Inv#	Model#		List	M.A.P.
80284	BM15A LEFT	9"LF/200W, 1.1"HF/100W, 40-22kHz Left	3145.00	2549.00
39419	BM15A RIGHT	9"LF/200W, 1.1"HF/100W, 40-22kHz Right	3145.00	2549.00

**DYNAUDIO**  
**BM Series Active Subwoofers**

BM series subwoofers employ a closed cabinet design for precise LF reproduction. Features include phase adjustment, auto power on/off, LFE or slave mode, and low-pass/high-pass frequency adjustments.

Inv#	Model#		List	M.A.P.
60614	BM9S	10"sub/200W/29-250Hz	1245.00	999.00
60608	BM14S	12"sub/300W/18-250Hz	2195.00	1799.00
