

Wire Folding Guitar Stand

GS7655 / 10592

Features and Benefits

This folding guitar Stand features a metal wire A-frame design and a 5-position adjustment system. The adjustment system also clips and locks into place when closed so that the stand does not flip open during transit. The 5-positions and stepped yoke design accommodate for most standard shapes and sizes of guitars. Other features include soft EVA rubber cushioning to protect your guitar from scratches. This lightweight stand folds flat for easy storage and travel and is perfect for the traveling musician.
