

Professional A-Frame Double Guitar Stand

GS7462DB / 10750

Features and Benefits

A versatile double version of our heavy-duty A-Frame features heavy-duty square tubing, EVA rubber and a "uni-construction" design which means that there are no parts to lose. Our patented stepped yoke holds both acoustic and electric guitars as well as desktop mixers and combo amps in the front and an additional electric guitar in the back. There is no longer a need to own multiple stands when our patented stepped yoke design can hold all of them. A must for the gigging musician.
