

Features and Benefits

On-Stage Gear introduces a new line of chrome-plated steel slides. Our slides come in a variety of ring sizes to suit the comfort and playing styles of every guitarist. Machined from heavy seamless steel, all our slides produce a rich musical sustain. The SLD206 features a heavier than usual wall, imparting a darker, warmer tone. All models include a custom-sized storage pouch with a snap spring closure.

Specifications

Application: Guitar slide
Length: 55mm
Construction: Chrome-plated steel
Includes: Storage pouch
Color: Chrome

A. — Size 11

Inside Diameter: 20.6mm **Outside Diameter:** 23mm
