

# Heavy-Duty Mic Stand with 12" Base

MS9212 / 11491

M20 THREADED

## Features and Benefits

The MS9212 offers pro-level features, including a 10-pound 12" base that provides unmatched stability to handle the heaviest microphones and longest boom arms. Its oversized shafts measure 1.125" in diameter for the a lower shaft, and 7 / 8" for the upper shaft. A reducer at the top of the upper shaft makes the MS9212 compatible with all standard.625"-27 threaded mic clips and boom arms. Connection of the lower shaft to the base is via a solid steel machined lug with M20 threading and locking washer. This course threading provides an excellent combination of fast assembly and secure connection, while extending thread wear far beyond fine-thread designs.

## Specifications

**Height:** 36"-65"

**Base Vertical Height:** 12"

**Base Weight:** 10 lbs.

**Upper Threading:**.625"-27"

**Base Threading:** M20

**Color:** Black
