

Heavy-Duty Tele-Boom Mic Stand

MS9701TB+ / 11657

Features and Benefits

Pro-level Platinum Series stands feature heavier diecast leg housings, thicker tubing and premium threads. A new ergonomic center clutch grip, coupled with an anti-rotating device on the lower shaft, makes for easy one-hand height adjustments. An all-metal boom clutch, zinc die-cast end caps, steel boom, and metal counterweight make the MS9701TB truly professional. The telescoping boom arm provides the right boom length for any application.
