

Video Camera / Digital Recorder Adapter

CM01 / 12037

Features and Benefits

Now every band with a video camera and mic stand can create professional videos of their live performances. Attach this innovative adapter to any .625" 27-threaded mic stand / boom to support a video camera or digital recorder with standard 1 / 4" threaded female inserts. Can also be used for conference / presentation recording, school play / concert recording, or even with a classroom projector. The adapter's ball-head allows for independent pan and tilt with 360 degree pan movement and 180 degree tilt.
