

# Adjustable Desktop Microphone Stand

DS7200C / 12587

## Features and Benefits

This stand features a die-cast steel clutch providing height adjustments from 9" to 13" making it perfect for desktop and short height miking. The solid sand-cast base with five rubber feet adds stability. The removable shaft is available with a black powder coat finish (DS7200B) or chrome finish (DS7200C).
