

# Shock Mount for Studio Microphones

MY430 / 12679

## Features & Benefits

The MY430 effectively isolates your studio mic from handling and floor noise. It's spider suspension decouples the mic from the rest of the room, allowing for cleaner and more polished recordings. The MY430 screws onto any standard mic stand and handles popular mics from 55 to 60mm in diameter.

## Specifications

**Application:** Prevents vibration when miking  
**Vertical Height:** Handles 55 mm - 60mm  
**Threading:** .625"-27  
**Color:** Black
