

Expedition XP106wDE Rechargeable Portable PA with Headset Wireless System and *Bluetooth*[®]

 **PORTABLE PA**

POSITIONING

Samson's Expedition XP106wDE Rechargeable Portable PA is a completely wireless lightweight speaker system that satisfies sound reinforcement needs for classrooms, conferences, tour groups, parties and more. Weighing only 16 pounds with 100 watts of power, the XP106wDE also includes a headset USB digital wireless system, *Bluetooth* connectivity and 20-hour internal rechargeable battery.

FEATURES

All in One

The XP106wDE offers a built-in 4-channel mixer with multiple input options and separate level controls. For events, the XP106wDE delivers wireless music playback from your smartphone, tablet or laptop via *Bluetooth*, while the included XPD1 Headset USB Digital Wireless System offers 100' of performance freedom. The additional channels can be used for adding a vocalist or guitarist, as well as stereo devices such as MP3 players, keyboards and more. Also, an included line output allows you to combine multiple systems together to expand your sound.

Portable Power

Powered by an ultra-efficient Class D amplifier, the XP106wDE packs 100 watts of power into a rugged enclosure weighing just 16 pounds. A convenient top carry handle makes transportation simple, while a full front grille protects all of the speaker's components.

Simple Setup

The XP106wDE makes going wireless easy. Simply plug the XPD1 Headset's USB stick receiver into the speaker's USB Wireless port, turn on your beltpack transmitter, and enjoy the freedom via the low-profile DE5 Double-Ear Headset Microphone. In addition, the XP106wDE features a Music/Speech switch that lets you optimize the output EQ for speech or music playback. It also offers a speaker stand mount for maximum display flexibility.
