

Drum Rim Clip

DM50 / 12939

Features and Benefits

The isolation cylinders on this clip dampen unwanted vibrations while miking your drum. The improved design has added a flexible rubber coating and a reverse clamp design, which allows for easier tightening and removal. Works with most flanged, die-cast and percussion rims and fits 6-18" diameter drums with rims as tall as 1-3/8". Fits 5/8"- 27 mic clips.

Specifications

Application: Drum Miking

Threading: .625"-27

Fits Drum Sizes: 6-8" in diameter with rims as tall as 1-3/8"

Color: Black Powder Coat Finish
