REDUNDANT BACKUP SAFETY CABLES

SAFETY CABLES

Safe-Tee's are prefabricated at the factory under exacting conditions to make installations quick, safe and secure. Use these cables to secure wall mounted and ceiling mounted loudspeakers and other installed equipment to structures as a redundant safety backup.

Safety Cable Kits are produced from load-rated aircraft cable and hardware and come in black, zinc and stainless finishes. The proper method for use is to completely bypass the mounted equipment with a safety cable by securing it between the mounted object and a structural member and with as little slack as possible.

CAUTION: DO NOT USE AS A PRIMARY SUSPENSION DEVICE.

STANDARD FEATURES:

- ▶ Made from high strength aircraft cable
- ▶ Ends are trimmed for quick attachment
- ▶ Load Rated for predictable installations

OPTIONAL ACCESSORIES:

- ▶ See Rigging Component datasheet

SPECIFICATIONS:

- Materials:** See table on next page
- Finish:** Galvanized or Stainless
- Color:** Black, Clear, Zinc or Stainless finish
- Design Factor:** 5:1 ratio (Ultimate yield point)

Custom length safety cables also available.

PACKAGE CONTENTS:

See table on next page

1/4" Anchor Shackle

1/4" Quick Link

Style A

A = Retaining washers on both ends

Style B

B=Finished ends with thimbles

Style C

C=Loop with Thimble on both ends

Style D

D= Loop on both ends

ALWAYS INSTALL SAFETY CABLES

WARNING: Mounting and/or suspension of audio and video equipment requires experienced professionals. Improperly installed loudspeakers can result in property damage, personal injury and/or liability to the installing contractor.
