Overview				

## Overview

The DN-312X is an ultra-slim 1U rack-mounted 12-channel mixer with 6 mic/line combination inputs (HDHQ™ Denon-Marantz proprietary mic pre's) and 6 additional line inputs. It has balanced XLR outputs, a 1/4-inch (6.3mm) mono output that can be used to connect the DN-312X to a remote mixer, a pair of RCA stereo outputs to connect to a remote recording device, and 1/4-inch (6.3mm) mic monitoring port that can be used to monitor the mics' signals. The DN-312X provides individual level control for all inputs in addition to level control for the mono output port and a master level control. It has a 3-level equalizer and a controlled priority for Mic/Line 1. It can be powered from standard AC or 24V DC power source.

Drawing on our trusted 25-year heritage in industry-leading playback technology, the latest Denon Professional equipment enable contractors and consultants to replace traditional media devices with high-quality media playback products that offer superior reliability and maintenance-free operation under the most challenging conditions.

### Products

[New Products \(http://www.denonpro.com/assets/microsites/namm2016/index.html\)](http://www.denonpro.com/assets/microsites/namm2016/index.html)
