

# FREEPLAY LIVE

## COMPARISON ANALYSIS

The new Mackie FreePlay LIVE builds upon the original FreePlay design, packed with features and benefits influenced directly by user feedback.

With a long-lasting Lithium-ion battery built right into the product, all users can enjoy battery-powered performance at no extra cost. Plus, users can mount FreePlay LIVE directly to a mic stand with the included adapter. Enhancing the music experience, FreePlay LIVE can be wirelessly linked to any FreePlay Series speaker for immersive stereo or multi-room sound.

It's everything you love about FreePlay in a design that's louder, lower and lighter than the original.
