SOUNDS LIKE LIFE

When sound matters, Earthworks is the choice. For over two decades, Earthworks Audio has sculpted the sounds of your favorite concert halls and performances.

WHY ICON

The USB Microphone For Professionals

Perfect sound every time.

Simplicity & Elegance

This is the last USB microphone you'll ever want.

Looks As Good As It Sounds

This is the microphone that belongs on camera with you — reflecting your style and brand. After all, you're on screen for a reason.

KEY FEATURES

- Sound signature designed for streaming, podcasting, interviewing, gaming, web conferencing, and content creating.
- Capture studio-quality audio.
- Ultra-fast capsule - rise time speed of 14 microseconds
- Off-axis rejection prevents room noise from entering your stream — even when you're working from home along with the rest of the family.
- Integrated visual LED status indication.
- Intuitive analog mute & gain control.
- Headphone out with sidetone (sidetone available on PC & Linux).
- Interchangeable class-compliant USB connectivity, for plug 'n play simplicity.
- No foam. Easy-to-clean stainless steel windscreen with integrated pop filter.
- Designed, machined, & assembled in the USA.
