

The Microphone Softpod is another great idea put into action by Ace Backstage Co. This simple yet sturdy device was designed to mount on any standard mic stand and hold 6 standard ball-type microphones securely. The Microphone Softpod is easy to use and lightweight, which makes it portable and efficient.

On the left is a view of a Microphone Softpod fully loaded with 6 ball-type microphones. Microphone Softpods mount on most standard microphone stands. Soft foam Isolates and Cushions microphones from each other and minimizes noise when placing or removing microphones. Sturdy black metal base threads directly on to any standard mic stand.
