

A8-A, A8-AW

Description

Lowell grille Models A8-A and A8-AW are attractive ceiling grilles for mounting 8" loudspeakers. Their clean simple lines are an industry standard for virtually all types of decor. Models A8-A and A8-AW are ideal for offices, hotels, schools, medical, retail, and commercial facilities of all kinds. Model A8-A is brushed aluminum finish; A8-AW is white powder epoxy.

Grilles are precision formed from a single piece of 0.032 aluminum making them suitable for a wide variety of climates including some indoor and outdoor applications where steel grilles would not be suitable. Grilles feature a circular perforation pattern and contoured edge for attractive ceiling installation. Each grille is complete with eight matching 8-32 Phillips-head screws; four for mounting the speaker driver and four for mounting the speakergrille assembly to the backbox or mounting ring (order separately - see page 2).

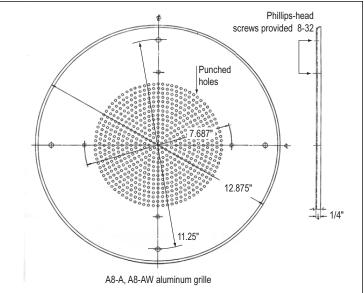

Lowell offers a wide selection of 8" speaker drivers with optional 70V or 25V transformer for distributed voice paging and music. Popular 8" drivers include Model 805 (12W dual cone), 810 (15W dual cone), 8C10MRA (15W moisture resistant), CT830 (20W coaxial), CT8320 (25W coaxial), and 8A50 (50W coaxial).

A & E Specifications

The grille for 8" speaker drivers shall be Lowell Model (A8-A, A8-AW). It shall be fabricated one-piece 0.032 aluminum reinforced with a peripheral flange of 60 degrees. The diameter shall be 12.875" with a shallow mounting projection from the ceiling of 0.25". The grille shall have four 0.218" holes spaced at 90 degree intervals for screw mounting the specified 8" speaker. It shall also have four 0.25" holes spaced at 90 degree intervals on a 11.25" bolt circle for mounting specified backbox or mounting ring. Model A8-A shall be finished in a clear lacquer coating to prevent tarnishing of brushed aluminum; A8-AW shall be finished in white powder epoxy. Both shall include matching screws for speaker and backbox mounting.

Companion backbox or mounting ring shall be Lowell . Companion tile bridge or channel rails for Model suspended installations shall be Lowell Model
