

SQUARE RECESSED BAFFLE FOR 8", 12", AND 15" LOUDSPEAKERS

164 SERIES

THREE

164 Series

GENERAL DESCRIPTION

The 164 Series includes attractive beveled edge baffles featuring a square loudspeaker cutout. A separate loudspeaker mounting plate provides for an extended, "no leak" bass response. Large perforations in the protective screen simplify repainting.

Units are finished in textured white epoxy with a black loudspeaker subplate. Available in standard screw-mount or torsion spring (T) versions for 8", 12", or 15" loudspeakers as noted.

ARCHITECT AND ENGINEER SPECIFICATIONS

The metal baffle shall be Atlas Sound 164 Series Model _____. It shall be constructed of heavy-gauge cold rolled steel and have a textured white epoxy finish. Two-piece baffle shall have a square grille opening with separate subplate for mounting loudspeaker baffle assembly to Atlas Sound enclosure Model _____, mounting ring Model _____, and/or tile bridge model _____.
