

MQ60H

2 way bass-reflex loudspeaker

The MQ60H is a wall mount monitor speaker designed to guarantee uniform coverage of a large area in order to limit the number of speakers and therefore the installation points.

It is a two-way speaker with three transducers: the 5" woofer and the two horn-loaded dome tweeters with constant directivity are positioned in such a way as to ensure the maximum listening comfort within the area covered.

Installation is carried out in two phases: first, you mount the support on the wall and make the electrical connections; when all the works are completed, you insert the speaker and make a quick connection.

MQ 60H-W white - MQ 60H-B black - MQ 60H-S silver

SPECIFICATIONS

Type	Type 2 way bass-reflex loudspeaker, LF 5" - HF two x
Musical power/RMS	120/60W (impedance "by-pass" connection: 16 Ohm)
Line Transformer	100 V - 30 W (multiple taps)
Sensitivity (1W/1m)	88 dB
Max Sound Pressure level SPL	107 dB
Frequency response	100 Hz - 19 KHz (-10 dB)
Crossover Frequency	2600 Hz 12/12 dB/oct
Protection	Dynamic on woofer and tweeter
Angle of coverage	180° hor x 120° ver (combined horn coverage)
Body	Autoextinguishing plastic HB
Accessories included	Adjustable integrated wall mounting accessory with the connecting terminals to the amplifier

Dimensions (WxHxD)

198x297x125 mm

Weight

6.1 lb. (2,8 kg.)
