

RSP-500 / RS-500 Jars

### Screws

Lowell provides installation professionals with a wide selection of rack mounting hardware to meet the requirements of the converging Audio/Video, Data, and Telecommunications markets. Lowell's selection of rackmount screws for 10-32 tapped/threaded use include Phillips finish and truss head, Robertson square head and Torx Star post security heads. Screws for square punched applications include 12-24 and 6mm Phillips pan head as well as Lowell's full selection of 10-32 screws when used with cage nuts. All 10-32 screws feature Lowell's PilotPoint™ tip and captive washer for time saving installation. They have 5.1 hardness for durable performance and may be used on tapped rails or on punched rails with cage nut (order separately). Screws for square punched rail use have a separate washer and install using cage nuts. Both styles may be used on Lowell's unique 2-sided and printed rackrail (see page 2). For ordering convenience, quantities are available in bags of 25, 50 or 100 pieces or in easy grip wide mouth jars of 500 pieces.

RSP Phillips Finish Head  
 RS Phillips Truss Head  
 RSV Torx® Star Post Head  
 NEW RSR Robertson square head available!

RC-100	Clip tinnerman-style 10-32	100 pc bag
L203	Key replacement rear door Series 2150 (key B644A)	1 pair
L204	Key replacement front door Series 2150 (key B399A)	1 pair
RGH40	Hardware for ganging racks 1/4-20 x 5/8" screws w kep nuts	40

**Adjustable Mounting Rails**

Lowell's 2-sided and printed rackrail is tapped on one side for threaded 10-32 screws and square punched on the other for 12-24, 6mm or 10-32 screws with cage nuts. Extra full length or short rails may be added to Lowell's open frame ganging racks (L279, L278, L277, L275), solid side stand alone cabinets (L268, L267, L265, L262, L260), portable (L258, L259) and sectional (L253, L250) models.

Rail quantity installed in Lowell racks is as follows: Series L279, L278, L277 and L268 have 2-pair (front & rear) rails installed. All others have 1 pair (front) installed with the exception of L262 and L260 which have 1 pair of fixed (non-adjustable) rails in front. Fixed rail Models L262 and L260 can have L212 Series adjustable rails mounted to the rear Z-angle for rear rail support; however, the rails will not be adjustable as Z-angle is welded into position.

**Series L212 Mounting Rails**

Model	Description	Pkg Qty
L212-12	Adj. 2-side Mtg. Rails tapped 10-32 & punch 12-24 for 12PS 7RU	1 Pair
