SRSR Series 19" Rotating Sliding Rail System

INDEX

Specify an SRSR for rear access to equipment connections in millwork and cabinets. Available with a 19" or 23" useable depth, the SRSR system extends and rotates 90° in either direction, making it ideal for smaller millwork and in-wall installations.

- Pulls out and rotates for equipment servicing
- Removable rack frame allows in-shop integration and on-site installation of equipment, saving time in the field
- Simplifies equipment installation in cabinet
- Shortens installation & service time
- Available in 19" and 23" useable depths
- Integral cable management system provided
- Brush Gasket fills unsightly gaps that may appear between the rack and custom millwork (requires a rough-in width of 19-5/8")
- Locks in place at 0°, 60°, and 90° positions for easy installation and servicing
- Ball bearing slides allow smooth rollout
- Locks closed with included hardware
- Up to 250 pound weight capacity, depending on model
