### UHT70C-U51-8

#### UL Listed 8" Loudspeaker for Fire Protective Signaling, 70V Transformer, U51-8 Baffle

Atlas Sound's UHT70C-U51-8 are 8" diameter single voice coil loudspeakers equipped with dual (whizzer) cone and 10 oz. ceramic magnet to deliver extended frequency response with high intelligibility and minimal distortion. Cost-effective units are complete with fire-retardant moisture-proof cones, factory-mounted 70.7V transformer, 6" color-coded leads, DC blocking capacitor and a 51-8 baffle.

To comply with UL requirements, loudspeaker packages must be used with UL-approved enclosures
