

SLB191

SLB™ Custom Interface Bracket for RPA™, RPM™ and Smart-Lift™ Series Projector Mounts

SLB interface brackets are required for installations using our RPA, RPM and Smart-Lift Series Mounts. Chief offers both custom and universal versions of SLB projector interface brackets.

- For Smart-Lift installations, SLB brackets must be ordered separately.
- RPA and RPM mounts already include the correct SLB bracket.

* Use Chief's MountFinder Pro to determine which model number matches your specific projector.

Features:

- Compatible with the RPA, RPM and Smart-Lift projector mounts

NOTE: If you need an interface bracket for the RPMA/RPMB/RPMC projector mounts with Q-Lock Security, order the SLM
