Capturing the detail and clarity of all your tape recordings without a hint of tape hiss

Dual autoreverse lets you copy both sides of a tape with the press of a button, or relay-play both sides of two tapes without interruption. The deck also includes Dolby B and C noise reduction to effectively eliminate tape hiss, auto-spacing to insert blank spaces between songs, high-speed dubbing, rec-level control, CD synchro recording, 8-segment peak level meters, an auto tape-bias selector, and a 4-digit electronic tape counter.
