

WIRELESS HEADWORN MICROPHONES

ATM73cW Cardioid Condenser Wireless Headworn Microphone

ATM75cW Cardioid Condenser Wireless Headworn Microphone

PRO 8HEcW Hypercardioid Dynamic Wireless Headworn Microphone

AT889cW Noise-canceling Condenser Wireless Headworn Microphone

- Designed for professional public speaking, aerobics instruction, and other demanding applications
- Comfortable, unobtrusive headband design

Operation: After use in high-moisture applications, such as aerobics instruction, on-stage performing, etc., remove the foam screen, wipe off the headset with a towel and permit them to air-dry. (Do not store in a closed space, such as a plastic bag, until all moisture has evaporated.)

ATM73cW: Wear the headband around the back of the head with each cushioned support pad resting on the temple in front of the ear.

ATM75cW and PRO 8HEcW: Wear the headband around the back of the head with each cushioned support pad resting on the temple in front of the ear. The assembly may be oriented so that the microphone descends from either the left or right side. The cable should remain clipped to the headband, with some slack at the boom connection.

AT889cW: Position the adjustable band around the back of the neck, placing the cushioned earpieces over each ear.

Adjust the headband as necessary for a stable, comfortable fit.
