

Hurricane™ Haze 2D
 Weight: 18.7lbs (8.5kg)
 Size: 11.2 x 10.5 x 13.7in
 285 x 267 x 350mm

Key Features

- Water-based haze machine that creates a thin atmosphere to enhance any light show
- Digital display for easy addressing and access to functions.
- Runs continuously and never stops to reheat so the haze is always ready to go
- Haze output and blower speeds are adjustable via stand-alone operation (no controller needed)
- User-adjustable output angle ensures the haze goes where it's needed
- Low-fluid indicator automatically turns off the machine when the tank is empty
- Includes wired, timer remote with storage compartment for easy transportation
- DMX controllable
