

2U VENTED RACK SHELF 14"

RVS2000

FEATURES AND BENEFITS

The RVS2000 2U Vented Rack Shelf enables easy integration of non-rack-mount components into a rack system. This two-space 19" shelf mounts directly to any standard rack or server cabinet to provide a secure location for wireless transmitters, audio interfaces, and other non-mountable devices. Constructed from solid steel, this shelf supports up to 35 pounds to ensure the safety and stability of the gear inside. With 14 inches of horizontal depth, this enclosure provides plenty of room for a wide range of devices. Perforated and slotted ventilation promotes proper air circulation to protect equipment against overheating. With its black powder-coat finish that resists chips and scratches, this versatile accessory will remain looking fresh while adding to a professional presentation in any venue, recording studio, or streaming setup.
